TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

GEOLOGIST POSITIONS

Section 24.47 is hereby added to the regulations in this part.

§ 24.47 *Geologist positions involving highly complicated or fundamental scientific research or similar difficult scientific duties*—(a) *Educational requirement.* For geologist positions involving highly complicated or fundamental scientific research or similar difficult scientific duties certification may be restricted to those eligibles who show the successful completion of a four-year course leading to a bachelor's degree in a college or university of recognized standing, including or supplemented by 30 semester hours of geology.

(b) *Duties.* These positions requiring the successful completion of four years of college or university training in geology are characterized as follows:

Critical investigative work, requiring a sound knowledge of the fundamental laws, theories, principles, terminology and literature of geology and related sciences and having for its objective the discovery of new facts, the development of new theories or principles, or a new interpretation of known facts, leading to a revision of accepted theories and laws.

The application in new ways of known complex scientific laws and facts in the solution of difficult geologic problems.

The coordination, as a project leader, of a broad research program requiring the combined efforts of several specialists in different scientific fields. The leader of such a program must have an understanding of the scientific principles, procedures and potentialities of the scientific fields involved and the ability to coordinate the activities of the various specialists.

(c) *Knowledge and training requisite for performance of duties.* In the steady advance of scientific knowledge, geology has played a prominent role, and of necessity it must keep pace with the other sciences for it is concerned with the

natural occurrence of the raw materials used in many of the other sciences and in a variety of industrial processes. New deposits of coal, oil, gas, the metallic ores, the rare earths, radioactive substances, and the other minerals of economic importance are all located, studied, mapped, and evaluated by geologists. No longer can we expect many valuable deposits to be stumbled upon by scientifically untrained prospectors. It is to the trained geologist, well versed in the principles, not only of geology, but also of the allied sciences, and using the latest knowledge, techniques and instruments, that we must turn for help in wresting from the earth the materials which lie hidden beneath her surface.

Geology is concerned with much more than the discovery and extraction of mineral wealth. A knowledge of its principles is vital to the successful building of dams, bridges, and other structures, and also to the protecting and conserving of our agricultural soil and our water supplies.

In addition, geology has the philosophical objective of adding to the sum of human knowledge by producing as complete a history of the earth as possible. This knowledge, contained in the geologic fields or stratigraphy, paleontology, petrology, structural geology, sedimentation, geomorphology, glaciology, and vulcanology, has been derived largely, and will continue to be derived largely, by geologists in government service, both state and Federal. The quality and quantity of results obtained through geologic research is commensurate with the knowledge and training of the men engaged. With the store of information accumulated not only in the various fields of geology but also in the related sciences growing steadily larger, it becomes more and more imperative that the professional geologist have the broad background of knowledge that can be acquired only through the successful completion of a large number of formal courses in geology.

Private industry engaged in geological work has long recognized the necessity for broadly trained men well rounded in the fundamentals of the science for filling professional positions. They are required to have education represented by at least the attainment of a bachelor's degree in geology. The Federal Govern-

ment cannot afford to be less stringent in its requirements, as the duties of its positions require the best talent available in order that its work may not lag behind that of other nations.

(d) *Method of obtaining basic knowledge and training.* The only method by which the knowledge and training required can be obtained is by attending a college or university where competent instruction and guidance are available, where courses are arranged in a systematic, progressive schedule, where adequate laboratory facilities and libraries are provided, and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders)

PART 927—MILK IN NEW YORK METROPOLITAN MARKETING AREA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937 (7 U. S. C., 601 et seq.), hereinafter referred to as the "act," and of the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area, hereinafter referred to as the "order," it is hereby found and determined that:

1. The entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," does not tend to

effectuate the declared policy of the act with respect to all milk subject to the provisions of the order during the month of July 1947; and

2. In accordance with the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) notice of proposed rule making, public procedure thereon, and publication or service of this suspension order 30 days prior to its effective date hereby are found to be impracticable and contrary to the public interest in that it is imperative to issue this suspension order immediately so as to facilitate and promote the orderly marketing of milk produced in July 1947 for the New York metropolitan milk marketing area, and in that the time intervening between the date when the need for this action became apparent and the effective date hereof is insufficient to provide for public rule making procedure, prior notice thereof and publication or service of this order 30 days prior to its effective date.

It is therefore ordered, That the entire table contained in § 927.5 (a) (1) of the order, with the exception of the words "Dollars per cwt." and the figure or price "4.58," be and it hereby is suspended with respect to all milk subject to the provisions of the order during the month of July 1947. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

[Plum Order 9]

PART 936—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

REGULATION BY GRADES AND SIZES

§ 936.310 Plum Order 9—(a) Findings.

(1) Pursuant to the marketing agreement, as amended, and Order No. 36, as amended (7 CFR, Cum. Supp., 936.1 et seq.) regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Gaviota plums, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when infor-

mation upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order* (1) During the period beginning at 12:01 a. m., P. s. t., June 14, 1947, and ending at 12:01 a. m., P. s. t., October 11, 1947, no shipper shall ship:

(i) Any package or container of Gaviota plums containing plums which do not meet the requirements of U. S. No. 1 grade (as specified for such grade in the United States Standards for plums and prunes (fresh) 12 P. R. 2305) with a total tolerance of ten (10) percent for defects not considered serious damage, in addition to the usual tolerances permitted in said United States Standards; or

(ii) Any package or container of Gaviota plums containing plums of a size smaller than a size that will pack a 4 x 5 standard pack, as specified in the aforesaid United States Standards, in a standard basket, as specified in paragraph numbered 1 of section 828.1 of the Agricultural Code of California. The aforesaid 4 x 5 standard pack is defined more specifically in subparagraph (3) of this paragraph.

(2) During the period set forth in subparagraph (1) of this paragraph:

(i) The total quantity of Gaviota plums which a shipper may ship during any day, from any shipping point, shall meet the following additional conditions:

(a) Of said total quantity, not more than fifty (50) percent, by number of packages, shall be of a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket; and

(b) The remainder of such total quantity shall be of a size larger than a size that will pack a 4 x 5 standard pack, as aforesaid, in the aforesaid standard basket.

(ii) If any shipper, during any two (2) consecutive days, ships from any such shipping point less than the maximum allowable portion of such Gaviota plums that will pack a 4 x 5 standard pack, as aforesaid, the amount of such undershipment of such plums may be shipped only during the next succeeding calendar day, in addition to such Gaviota plums of such 4 x 5 size that the respective shipper could have shipped on such succeeding calendar day if there had been no undershipment during the two (2) preceding days.

(3) As used in this section, the aforesaid 4 x 5 standard pack is defined more specifically as follows: (i) At least thirty-five (35) percent, by count, of the total of such plums contained in any such pack measure not less than $1\frac{1}{16}$ inches in diameter, such diameter, as defined in the aforesaid United States Standards, being the shortest distance measured through the center of the plum at right angles to a straight line running from the stem to the blossom end; (ii) at least sixty (60) percent, by count, of the total of such plums contained in any such pack measure, as aforesaid, not less than $1\frac{1}{16}$ inches in diameter; and (iii) no

plums contained in any such pack measure, as aforesaid less than $1\frac{7}{16}$ inches in diameter.

(4) Nothing contained in this section, shall be construed (i) as preventing a shipper from shipping Gaviota plums of a size larger than the size that will pack a 4 x 5 standard pack, as aforesaid, if said plums meet the grade requirements hereof, or (ii) as permitting the shipment of Gaviota plums of a size smaller than a size that will pack a 4 x 5 standard pack, as aforesaid, even if the plums do meet said grade requirements.

(5) Each shipper, prior to making each shipment of Gaviota plums, shall, during the period set forth in subparagraph (1) of this paragraph, have the plums included in each such shipment inspected by a duly authorized representative of the Federal-State Inspection Service, heretofore designated by the Plum Commodity Committee and hereby approved; and each such shipper shall submit promptly, or cause to be submitted promptly, to the Plum Commodity Committee, Federal-State shipping point inspection certificates stating the grades and sizes of the Gaviota plums contained in each such lot or shipment: *Provided, however* That, in case the following conditions exist in connection with any such shipment:

(i) A request for inspection is made to the Federal-State Inspection Service not later than 5:00 p. m. of the day before the fruit will be available for inspection;

(ii) The fruit is available for inspection between the hours of 7:00 a. m. and 8:00 p. m. of the day specified in the request for such inspection; and

(iii) The Federal-State Inspection Service furnishes the shipper with a signed statement that it is not practicable, under such conditions, for the Federal-State Inspection Service to make the inspection within the necessary time;

the shipper, by submitting or causing to be submitted, such signed statement to the Plum Commodity Committee, may make the particular shipment without such inspection, but such shipper shall still be held responsible for conforming with all grade and size regulations applicable to such shipment.

(6) The determination in § 936.301 with respect to shipments of plums into, in, or through the San Francisco-Sacramento region and the Los Angeles region shall be applicable to this section.

(7) The terms "shipper," "ship," "shipping," "shipping point," and "shipment," shall have the same meaning as when used in the amended marketing agreement and order. The term "serious damage" shall have the same meaning as set forth in the aforesaid United States Standards. (48 Stat. 31, as amended, 7 U. S. C. 601 et seq., 7 CFR, Cum. Supp., 936.1 et seq.)

Adrian Beverages, Inc., is a Michigan corporation, with principal place of business at 1345 East Church Street, Adrian, Michigan. The company is charged by the Office of the Housing Expediter with having violated Veterans' Housing Program Order 1 in that without authorization it began, subsequent to April 12, 1946, and thereafter carried on construction of a structure at the intersection of U. PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing
Administration

[7 CFR, Part 725]

BURLEY AND FLUE-CURED TOBACCO

ESTABLISHMENT OF TOBACCO FARM ACREAGE
ALLOTMENTS AND NORMAL YIELDS FOR
1948-49 MARKETING YEAR

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. and Sup. 1312, 1313) the Secretary of Agriculture is preparing to formulate regulations governing the establishment of farm acreage allotments and normal yields for marketing quotas to be in effect during the 1948-49 marketing year for flue-cured and Burley tobacco.

Growers of flue-cured and Burley tobacco voting in referenda held on July 12 and October 25, 1946, respectively, favored marketing quotas for the marketing years 1947-48 through 1949-50 by a percentage of 97.1 (11 F. R. 9732) in the case of flue-cured, and 95.9 (11 F. R. 14509) in the case of Burley tobacco.

The applicability of the regulations as issued with respect to each kind of tobacco will be contingent upon the proc-

lamation of a national marketing quota by the Secretary.

Prior to the final adoption and issuance of these regulations, consideration will be given to any data, views, and recommendations pertaining thereto which are submitted in writing to the Director, Tobacco Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. All submissions must be postmarked not later than June 30, 1947.

Issued at Washington, D. C., this 9th day of June 1947.

TILLA, AND SAGUACHE COUNTIES, COLO.NOTICE OF PROPOSED RULE MAKING WITH RE-
SPECT TO BUDGET OF EXPENSES AND FIXING
OF RATE OF ASSESSMENT FOR 1947-48 FIS-
CAL YEAR

Consideration is being given to the following proposals, submitted by the Ad-

ministrative Committee, established under amended Marketing Agreement No. 67 and amended Order No. 10 (7 CFR, Cum. Supp., 910.1 et seq.), regulating the handling of fresh peas and cauliflower grown in the Counties of Alamosa, Rio Grande, Conejos, Costilla, and Saguache in the State of Colorado, as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed \$2,500 will be necessarily incurred during the fiscal year beginning June 1, 1947, and ending May 31, 1948, both dates inclusive, for the maintenance and functioning of the said Administrative Committee established under the aforesaid amended marketing agreement and order and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler shall pay in accordance with the aforesaid amended marketing agreement and order on fresh peas and cauliflower, respectively, shipped by such handler during the aforesaid fiscal year, the rate of assessment at (1) \$1.25 per straight car of peas or cauliflower or per mixed car of peas and cauliflower, and (2) when less than a carload is shipped, one-half (\$0.005) cent per bushel of peas or crate of caul-

flower or the respective equivalent quantities thereof, but in no event shall the assessment be in excess of \$1.25 on a shipment of peas or cauliflower less than a carload lot, or a mixed shipment thereof less than a carload lot.

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS THERE TO WITH RESPECT TO PROPOSED AMENDMENTS TO THE ORDER

Pursuant to the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders (7 CFR Supps., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159) notice is hereby given of the filing with the Hearing Clerk of a recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to proposed amendments to the order, as amended, and to a proposed marketing agreement, regulating the handling of milk in the Cincinnati, Ohio, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.)

Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., postmarked not later than 5 days after the publication of this recommended decision in the FEDERAL REGISTER.

Preliminary statement. A public hearing, on the record of which the proposed amendments to the order, as amended, and the proposed marketing agreement were formulated, was called by the Production and Marketing Administration, United States Department of Agriculture, following receipt of proposed amendments filed by the K. I. O. Milk Producers Association, Inc., the Milk Producers' Union, Inc., and Cooperative Pure Milk Association. Additional

proposals for consideration were submitted by the Avondale Dairy, et al. and the Dairy Branch, Production and Marketing Administration. The public hearing was held at Cincinnati, Ohio, March 3, 1947, upon notice issued on February 27, 1947 (12 F. R. 1397).

The principal issues developed at the hearing were concerned with the following:

(1) How and to what extent, if any, should the level of the price differential for Class I milk above the basic Class III milk price be changed;

(2) How and to what extent, if any, should the level of the price differential for Class II milk above the basic Class III milk price be changed;

(3) Establishing a lower price for Class III milk disposed of as butter; and

(4) Revising the manner of computing the value of milk for each handler so that the average price (blend of Class I, Class II, and Class III milk values) for any handler can never exceed the price for Class I milk.

Findings and conclusions. The proposed findings and conclusions with respect to the issues presented at the hearing, together with the reasons therefor, are as follows:

(1) The Class I price differential over the basic Class III price should be revised to provide a seasonal pattern, including floor prices, and an increase in the annual average level of the differential.

General economic conditions and business activity in the Cincinnati area indicate a continued good demand for milk and milk products.

The prices of livestock and grains have advanced sharply in 1947 and compared to declining milk prices offer returns from alternative farm enterprises which will tend to discourage milk production if these price relationships continue over an extended period of time.

Cincinnati handlers compete with milk buyers in other areas for supplies to be used for fluid milk purposes. Several condenseries also buy milk from farmers residing in or near the Cincinnati milkshed. The record is replete with references to the keen competition for milk between the Cincinnati and the Dayton-Springfield areas. The price relationship between these two areas shows historically that the Cincinnati price has been somewhat higher.

The Cincinnati basic or Class III price is derived from the prices paid dairy farmers by five named nearby Ohio, Indiana, and Kentucky condenseries and is different from the basic formula price used in a number of competing fluid milk markets. The basic formula price used in the Dayton-Springfield, Columbus, Tri-State and Louisville markets is derived from the prices paid dairy farmers by eighteen named Wisconsin and Michigan condenseries. On a hundredweight basis for milk containing 3.5 percent butterfat the Cincinnati basic price averaged 22 cents lower for 1945 and 19 cents lower for 1946 than the basic price used in the above-named markets. Thus after giving consideration to other price making factors found in varying degrees in this group of neighboring markets the

Cincinnati Class I differential must be about 20 cents per hundredweight above the others to be a comparable basis and keep the resulting Class I prices in line.

More rigid enforcement of the Cincinnati Health Department regulations has resulted in producers having to use costly mechanical milk refrigerators. The regulations requiring farmers to deliver cold milk have come about over a period of years. Handlers originally offered premiums for milk of special quality which was usually produced under mechanical refrigeration. About the time of the war emergency the health department announced that it would require all milk to be delivered to Cincinnati fluid milk market at or below a temperature of 60 degrees. This requirement was not enforced because mechanical refrigerators were unobtainable and the effective date requiring cold milk has been extended from time to time. The record indicates that as of May 1, 1947, the requirement would be enforced. Handlers and producer associations have procured great numbers of refrigerators for their producers and will continue until all producers are so equipped. The premium paid for mechanically cooled milk has gradually declined over several years to a level of approximately 10 cents per hundredweight. It would appear that this amount has been the minimum incentive necessary to induce producers to incur the added cost of cooling milk mechanically up to the time they were required to do so by health department regulations.

The trend of the cost of feeds, labor, and supplies incurred by farmers in the production of milk has been upward during 1946 and 1947. The price of some feeds decreased somewhat from the peak reached when ceilings were removed in 1946 until February 1947. During February and March of 1947 the price of dairy feeds advanced sharply and established a new upward trend. Attempting to find an index that will reflect many milk price-making factors, the order provides for a basic Class III price which is the price paid for manufacturing milk by a selected group of condenseries in the Cincinnati territory. The basic Class III price does not, however, reflect fully all the factors necessary to arrive at a price for Class I milk. The order, therefore, provides a differential that is added to the basic Class III price to arrive at the Class I price. This differential is utilized to reflect various price-making factors not fully covered by the basic Class III price and to balance the relative weights of such factors under current local economic conditions, so that the Class I price will be at a level which will reflect, in addition to the price and availability of feeds, other economic conditions which affect market supply and demand for milk in the marketing area and will insure an adequate supply of pure and wholesome milk and be in the public interest. Farmers producing milk for fluid purposes must use feed, labor and supplies more extensively to maintain production at a more uniform and high level than is required of manufacturing milk producers. Consequently, the increases in

the prices which have taken place in these items affect the fluid milk producers more than producers of milk for condenseries. The trend of basic Class III price is downward and has decreased 54 cents from November 1946, to January 1947, the last price, quoted in the record.

The level of production of regular producer milk has been insufficient to meet the needs of Class I milk and Class II milk in the Cincinnati market. It has been necessary for handlers to supplement their supplies of producer milk in Class I and Class II with substantial quantities of milk from other sources usually of a lower quality standard than producer milk.

Furthermore, there has been a maladjustment in the supply of regular producer milk in relation to the demand for Class I milk and Class II milk in the Cincinnati market. The utilization of Class I milk and Class II milk has been relatively uniform throughout the year; whereas the receipts of milk from producers varies among the seasons of the year. The variation in the receipts of producer milk between the flush production season and the short production season has become progressively wider for several years. Production varies seasonally to such an extent that in 1946 the production for November was only 57 percent of that for June. The cost of producing milk is considerably higher during the fall and winter months than during the months of April, May, June and July. Recent price plans employed in the Cincinnati area have not provided as great a seasonal variation in producer prices as was customary prior to the maximum price regulations effective during the war emergency. For this period of time farmers were urged to produce all the milk possible with little regard to the season or the requirements of their local fluid milk market. Under these conditions, maximum milk production shifted to the spring months when production costs were at their lowest level. To halt and reverse this trend, especially at a time when general milk market conditions are unsettled, will require a guarantee that the fall and winter prices are to be substantially higher than spring prices. Absolute floor prices for the 1947-48 season in conjunction with a Class I price differential employing a seasonal pattern, from a long time standpoint, will give this assurance. If the basic Class III formula produces a higher price for these fall and winter months, it should prevail as a further guarantee that the Class I price will be more in line with the then current marketing conditions. The record indicates the need of a seasonal Class I price differential which would be 30 cents more for the eight months of August through March than for the four months of April through July. Normally, the basic Class III price is about 20 to 40 cents higher for the months of short production. Also normally, the percentage utilization of producer milk for fluid purposes is higher during the fall and winter months, resulting in about a 10 to 20 cent higher blend price compared to the flush production season. Adding these three fac-

tors together, it is estimated that the blend price for the short production months, will exceed that for the flush production months by about 60 to 90 cents.

Handlers contend that the present class price differentials should be lowered, but because of the uncertainties in the market conclude no changes should be made in the class prices for milk at the present time. These very uncertainties in market conditions are the best argument for changing the price making pattern to one calculated to stabilize the fluid milk market as much as possible during the postwar realignment of dairy prices and other commodity prices. Aside from this the other heretofore mentioned price-making factors warrant a revision of the pricing plan.

It is concluded that the weighing of the above-mentioned price-making factors indicate the need for revising the level of the Class I price differential upward about 10 cents per hundredweight on an annual average. It is further concluded that the milk producers of the Cincinnati area need at this time, when they are planning their fall and winter production program, more definite assurance as to the level of milk prices than is presently afforded by the basic Class III price. In order to obviate uncertainty inherent in the basic Class III price during abnormal postwar marketing conditions, a floor price for Class I milk is established below which the price will not be permitted to go. The level of floor prices for the fall and winter months should be substantially higher than the prices prevailing during May and June to emphasize the seasonal factor of milk pricing and assure farmers of higher prices during the seasons when an increase in milk production is most needed by the market. A Class I floor price beginning July 1, 1947, of \$4.80 and increasing to \$5.24 beginning September 1, 1947 (approximately 1 cent per quart below December 1946) will recognize this seasonality and result in prices well above the current level of May and June prices. These changes are accomplished by revising the present year-around Class I price differential of \$1.15, over the basic Class III price, to the seasonal pattern of \$1.05 for the four months of April through July and \$1.35 for the eight months of August through March (annual average \$1.25) *Provided*, That for the months of July and August, 1947 the price for Class I milk shall not be less than \$4.80 and for the months of September, October, November, and December 1947 and January, February, March 1948 such price shall not be less than \$5.24.

(2) The Class II milk price differential over the basic Class III price should be revised to provide a seasonal price pattern, including floor prices, and an increase in the annual average level of the differential. The relationship between the present Class I and Class II differentials should be maintained month by month in the revised seasonal class pattern and in the floor prices.

The material factors with reference to revising the Class II price differential over the basic formula price to a

seasonal pattern and a higher annual average level and the floor prices are the same as those set forth with respect to Class I.

(3) A lower price for Class III milk disposed of as butter should not be established at this time.

During the heavy production months some milk received in excess of Class I and Class II requirements is disposed of as butter (Class III) by some handlers. When milk is disposed of as butter, the skim milk is normally processed into a by-product. All handlers are not equipped to process condensed skim milk. Some handlers contend that the Class III price is too high for milk disposed of as butter unless the skim milk is salvaged. Handlers not equipped to process skim milk normally sell it to handlers so equipped. The record shows that sufficient sugar would be unavailable for handlers to process the anticipated amount of skim milk during the flush production season of 1947 unless the rationing plan was revised to make more sugar available for condensing milk.

The evidence introduced in support of this proposal was premised primarily on a reasonable price for milk made into butter without making an allowance for the value of the skim milk. The evidence fails to show a basis for lowering the price of Class III milk when made into butter and sugar is available for the manufacture of condensed skim milk or other manufacturing outlets for skim milk are available. The testimony offered in support of this proposal indicated that any lower price for Class III milk made into butter should apply only for the months of April, May, and June. Inasmuch as an amendment to the order cannot be made effective for such period in 1947 and the record fails to show sufficiently that such conditions may be anticipated in the future, and for the other foregoing reasons it is concluded that a lower price for Class III milk disposed of as butter should not be established at this time.

(4) The manner of computing the value of milk for each handler should not be changed at this time.

A proposal was made to revise the manner of computing the value of milk for each handler so that the average price (blend of Class I, Class II, and Class III milk values) for any handler can never exceed the price for Class I milk.

While on its face this proposal might seem reasonable it completely overlooks the fact that the method of computing the value of milk for a handler was adopted, on the basis of prior hearing records, so that under certain conditions the composite price will exceed the Class I price. The proposal ignores the fact that under the present plan of classification a handler's composite price would normally exceed the Class I price when—(a) most of the butterfat used in the lower classes is so called "differential fat," (b) considerable milk from undisclosed sources is used to replace producer milk, (c) there is a decided "overrun" (sales exceed purchases) or (d) sizeable upward classification changes are made through audit correc-

tions. This proposal could not be adopted without disrupting or nullifying the particular method of classifying milk and computing prices employed by the Cincinnati order unless a complete revision of the plan is made. The record is inadequate for this purpose and for this reason it is concluded that no revision should be made in the manner of computing the value of milk for a handler.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Producer Associations and various handlers subject to Order No. 65. The briefs contained statements of fact, conclusions, and arguments with respect to nearly all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record, in making the findings and reaching the conclusions hereinbefore set forth. Although the briefs do not contain specific requests to make proposed findings, it is assumed that the arguments and conclusions submitted were for this purpose and are treated accordingly. To the extent that such proposed findings and conclusions are inconsistent with the proposed findings and conclusions contained herein, the implied request to make such findings or to reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as

amended, and as proposed here to be further amended.

1. Delete § 965.6 (a) (1) and substitute therefor the following:

(1) The price for Class I milk shall be the price for Class III milk plus \$1.05 for the delivery periods of April through July and \$1.35 for the delivery periods of August through March; *Provided*, That for the delivery periods of July and August 1947, the price for Class I milk shall not be less than \$4.80 and that for the delivery periods of September, October, November and December 1947 and January, February and March 1948 such price shall not be less than \$5.24.

2. Delete § 965.6 (a) (2) and substitute the following:

(2) The price for Class II milk shall be the price for Class III milk plus \$0.60 for the delivery periods of April through July and \$0.90 for the delivery periods of August through March; *Provided*, That for the delivery of July and August 1947, the price for Class II milk shall not be less than \$4.35 and that for the delivery periods of September, October, November and December 1947 and January, February and March 1948, such price shall not be less than \$4.79.

FORMS FOR REGISTRATION STATEMENTS

NOTICE OF PROPOSED REVISION

Notice is hereby given that the Securities and Exchange Commission has under consideration the following pro-

posals for action pursuant to the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19 (a) thereof:

I. A proposal for the revision of Form S-2 (17 CFR 239.12). At the present time, Form S-2 is available for use by commercial or industrial companies having a simple corporate history and financial structure, whether established or still in the stage of development. In view of the recent revision and simplification of Form S-1 (17 CFR 239.11) it is felt that it is no longer necessary to authorize the use of Form S-2 for established companies. Accordingly, it is proposed to revise and simplify Form S-2 for use only by new companies and those still in the development stage.

Persons desiring to comment on the proposed revision of Form S-2 may obtain copies thereof from the principal office of the Commission at the address given below.

II. A proposal for the rescission of Form S-12 (17 CFR 239.19). The requirements of Forms S-2 and S-12 presently overlap to a considerable extent. With the revision and simplification of Form S-2, as proposed above, Form S-12 would no longer serve any useful purpose.

III. A proposal for the rescission of Form C-1 (17 CFR 239.3). This form, which is prescribed for unincorporated investment trusts of the fixed or restricted management type, has become obsolete through the adoption of later forms for securities of such trusts.

All interested persons are invited to submit data, views and comments on the above mentioned proposals in writing to the Securities and Exchange Commission at its principal office, 18th and Locust Streets, Philadelphia 3, Pennsylvania, on or before July 10, 1947.

By the Commission.

APPROVAL OF CHANGES IN TERMS AND
CONDITIONS OF EMPLOYMENT

On May 16, 1947, the Coal Mines Administrator filed an application with the Secretary of Labor requesting the approval by a Special Board, to be appointed by him under the authority of Executive Order 9809, of changes in terms and conditions of employment affecting employees at the mines and facilities which were taken by the Secretary of the Interior, under authority of Executive Orders 9728 and 9758. The changes, approval of which was applied for under the provisions of the War Labor Disputes Act, were set forth in the letter of application dated May 16, 1947, which was approved by the Secretary of the Interior and Welly V Hopkins, General Counsel, United Mine Workers of America. By an order dated May 10, 1947 (12 F. By an order dated May 16, 1947 (*supra*) the Secretary of Labor amended the said order of May 10, 1947, to authorize the Special Board appointed in that order to receive and act upon any further applications concerning the question of vacation payments due to miners during the annual 1946-1947 period as to mines presently in Government possession.

Under the authority conferred by section 5 of the War Labor Disputes Act, Executive Order 9809, and the aforesaid orders of the Secretary of Labor dated May 10, 1947 and May 16, 1947, respectively, the undersigned Special Board, having made such investigation as it deems necessary and desirable, and having found that the changes in terms and conditions of employment, as applied for, are fair and reasonable within the meaning of section 5 of that act and are not in conflict with any act of Congress or any Executive order issued thereunder, with respect to employees at the mines and facilities taken by the Secretary of the Interior under the authority of Executive Orders 9728 and 9758, and whose terms and conditions of employment are affected by the orders of the National Wage Stabilization Board issued under the authority of section 5 of the War Labor Disputes Act and approved by the President on May 31, 1946 and July 31, 1946, respectively, hereby orders:

1. That it approves all changes in terms and conditions of employment with respect to such employees set forth in the letter of the Coal Mines Adminis-

trator to the Secretary of Labor, dated May 16, 1947, attached to this order and made a part hereof.

The White House.

MY DEAR MR. SECRETARY: Section 7 of the Agreement of May 29, 1946, between the Coal Mines Administrator and the United Mine Workers of America recognized that an annual vacation period is the rule of the bituminous coal industry, and provided for vacation pay based on the qualifying period of June 1, 1945 to May 31, 1946, under the terms and conditions set forth therein. Certain bituminous coal mines have now been in the possession of the United States approximately one year since the end of the last vacation qualifying period for which payments were made.

The traditional vacation qualifying period has nearly expired, and services performed during that period were performed during the period of Government possession. It is therefore proposed that, in the absence of any agreement between the private operators of the mines and the Union with respect to vacation payments for 1947, the Coal Mines Administrator shall issue an order to the operating manager for the United States of each mine in Government possession pursuant to Executive Orders Nos. 9728 and 9758 directing vacation payments to be made to qualified employees in accordance with Section 7 of the Agreement of May 29, 1946.

Previous contracts between the operators and the Union, as well as the Agreement of May 29, 1946, provided for a vacation period of ten days beginning on the last Saturday in June during which time coal production was to cease. Since the authority and powers of the Coal Mines Administrator will expire by the terms of the War Labor Disputes Act on June 30, 1947, it does not seem appropriate to designate specifically the vacation period, but it is believed that the vacation period should commence on June 28, 1947, and that the vacation payment should be made on the last pay day in June but in no event later than June 27, 1947.

Accordingly, pursuant to section 5 of the War Labor Disputes Act and the administrative procedures contemplated by Executive Order No. 9809, I hereby submit for approval by a special Board in lieu of the National Wage Stabilization Board the following proposal relative to vacation pay:

The terms and provisions of section 7 of the Agreement of May 29, 1946, relating to vacation payments shall apply in all respects to a vacation qualifying period of June 1, 1946, to May 31, 1947, subject to the following:

(a) Vacation payments shall be made on the last pay day occurring in the month of June 1947, but not later than June 27, 1947.

(b) The vacation period for 1947 shall begin on June 28, 1947. Since the authority of the Coal Mines Administrator to operate the bituminous coal mines now in Government possession will expire on June 30, 1947, no provision is made for any vacation period beyond June 30, 1947.

(c) In the event that a contract is concluded prior to June 27, 1947, between any private operator or operators and the United Mine Workers of America which provides for or deals with any vacation payment based on the qualifying period of June 1, 1946, to May 31, 1947, the Coal Mines Administrator

will revoke any order directing the payment of vacation pay for that period and affecting the operator or operators that may be parties to such contract.

Inasmuch as it is necessary for each operating manager to prepare certain pay roll data in advance of the actual vacation payment, it is desirable that an order be issued on or about June 1, 1947. Accordingly, it will be appreciated if this application is processed expeditiously.

Very truly yours,

N. H. COLLISON,
Coal Mines Administrator.

APPROVAL OF TERMS AND CONDITIONS OF EMPLOYMENT OF SUPERVISORY EMPLOYEES

On April 24, 1947, and May 2, 1947, the Secretary of the Interior filed applications with the Secretary of Labor requesting the appointment of a special board, pursuant to the provisions of Executive Order No. 9809 to approve changes in terms and conditions of employment affecting supervisors and maintenance employees at the mines and facilities named above which were taken by the Secretary of the Interior on May 22, 1946 (12 F. R. 3488, 3490, 3491, 3493) under authority of Executive Order No. 9728. The changes, approval of which was applied for under the provisions of the War Labor Disputes Act, were embodied in four separate agreements accompanying those applications signed by the Coal Mines Administrator and the United Clerical, Technical and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, and were approved by the Secretary of the Interior and the United Mine Workers of America. Each of these agreements was dated April 26, 1947, excepting the agreement relating to terms and conditions of employment at the Francis & Berry Mines of Ford Collieries Company, Detroit, Michigan, which was dated April 7, 1947.

By an order dated May 10, 1947 (12 F. R. 3253) issued pursuant to the authority vested in him by Executive Order No. 9809, the Secretary of Labor appointed the undersigned as a Special Board to receive and act upon the applications in accordance with sections of the War Labor Disputes Act.

Under the authority conferred by section 5 of the War Labor Disputes Act, Executive Order No. 9309 and the order of the Secretary of Labor dated May 10, 1947, the undersigned Special Board, having made such investigation as it deems necessary and desirable and having found that the changes in terms and conditions of employment as applied for are

fair and reasonable within the meaning of section 5 of that act and are not in conflict with any act of Congress or any Executive order issued thereunder, with respect to supervisory and maintenance employees at the mines and facilities at the places referred to in the heading hereof, hereby orders:

1. That it approves all changes in terms and conditions of employment of supervisors and maintenance employees at the mines and facilities referred to in the heading hereof which are embodied and provided for in the agreements, dated April 7, 1947 and April 26, 1947, respectively, referred to in the preamble to this order.

2. That this order shall become effective upon its approval by the President. Upon such approval, all changes in terms and conditions of employment embodied and provided for in the agreements referred to in the preamble hereto shall be deemed effective as of the several dates which those agreements provide shall be their respective effective dates.

Dated: May 16, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order 9728 (dated May 21, 1946, 11 F. R. 5533) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, (hereinafter referred to as the Union) covers for the period of Government possession the terms and conditions of employment with respect to the Francis and Berry Mines of the Ford Collieries Company, Detroit, Michigan.

The term "supervisory employees," as used in this agreement, means only those supervisors of production and maintenance employees of the Francis and Berry Mines of the Ford Collieries Company, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1945, in Case No. 6-R-1213.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedures laid down by the National Labor Relations Board.

3. *Check-off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars (\$2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar (\$1.00) per pay

period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar (\$1.00) per supervisory employee Union member in any one-pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars (\$10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, *Provided*, That it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of its supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an

earnest effort shall be made to settle such differences immediately.

FIRST: Between the aggrieved party and a representative of the Coal Mines Administrator.

SECOND: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

THIRD: Through a representative of the Union and a representative of the Coal Mines Administrator.

FOURTH: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, provided, however, that any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Ford Collieries Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair

the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6-R-1213, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6-R-1213, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment or rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 7th, 1947, subject to the approval of appropriate Government agencies.

FOURTH: By a board consisting of four members, two of whom shall be designated by

the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, provided, however, that any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain again Wendel Coal Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the finding and determination of said Board in Case No. 6-R-1598, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decisions, or action of the National Labor Relations Board modifies the finding and determination of said Board in Case No. 6-R-1598, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 26, 1947 subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 26th day of April 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provisions of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, (hereinafter referred to as the Union) covers for the period of Government possession the terms and conditions of employment with respect to the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York.

The term "supervisory employees" as used in this agreement, means only those supervisors of production and maintenance employees of the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York, as defined and de-

scribed in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1946, in Case No. 6-R-1211.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars (\$2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar (\$1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar (\$1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial security of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars (\$10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, provided that it does not interfere with the orderly operation of the mines.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of

another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in Section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such difference immediately:

First: Between the aggrieved party and a representative of the Coal Mines Administrator.

Second: Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

Third: Through a representative of the Union and a representative of the Coal Mines Administrator.

Fourth: By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, *Provided, however,* That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such

practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, direction of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Pennsylvania Coal and Coke Corporation to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6-R-1211, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6-R-1211, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

SECURITIES AND EXCHANGE COMMISSION

[File No. 31-544]

INDUSTRIAL ELECTRICA MEXICANA, S. A.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 6th day of June 1947.

Notice is hereby given that Industrial Electrica Mexicana, S. A. ("Industrial") a Mexican corporation and an electric utility company, has filed with this Commission an application and an amendment thereto pursuant to section 3 (b) of the Public Utility Holding Company Act of 1935 requesting an exemption from all obligations, duties or liabilities arising under said act which would otherwise attach to it as a direct subsidiary of Hydro-Electric Securities Company ("Hydro") and as an indirect subsidiary of California Electric Power Company ("California")

Notice is further given that any interested person may, not later than June 20, 1947 at 5:30 p. m., e. d. s. t., request the

Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after said date said application, as filed or as amended, may be granted.

All interested persons are referred to said application which is on file in the offices of this Commission for a statement of the allegations therein contained, which are summarized as follows:

Industrial was incorporated in 1944 pursuant to the laws of the Republic of Mexico for the purpose of acquiring and operating the electric utility properties of Southern Sierras Power of Mexico, S. A. ("Southern Sierras") a former subsidiary of Hydro, and the electric utility properties of Compania de Luz Electrica de Mexicali, S. A. ("Mexicali") a non-affiliated company. The Mexicali properties, which were acquired by Industrial in 1944, consisted of an electric distribution system in the Municipality of Mexicali. The properties of Southern Sierras, which were acquired by Industrial in 1945, consisted of similar properties in the Northern Territory of Lower California and in the State of Sonora. All of the properties so acquired are located within the Republic of Mexico, and the business of Industrial is that of supplying electric energy to customers in the said areas in that country. Industrial has no generating facilities, deriving its entire supply of electric energy from its ultimate parent, California.

California, which was formerly a registered holding company, was, by order of this Commission dated December 10, 1936, declared to have ceased to be a holding company by virtue of having acquired the assets of all its public utility companies operating within the United States, retaining Southern Sierras as its only then remaining public utility subsidiary. Southern Sierras was at that time in an exempt status pursuant to former Rule U-3E-2. Thereafter, by order of this Commission entered August 21, 1941, Southern Sierras was granted an exemption pursuant to section 3 (b) of the act as a subsidiary of Hydro and of California. The application states that no major change has taken place in the character of the business then operated by Southern Sierras and now operated by Industrial, with the exception of normal growth and the addition of the properties of Mexicali. Industrial therefore asserts that it is entitled to the same exemption as that previously granted to Southern Sierras.

By the Commission.

Secretary.

Louisville of Delaware owns 883,161 shares of the 1,033,839 outstanding shares of common stock of Louisville Gas and Electric Company, a Kentucky corporation (hereinafter referred to as Louisville of Kentucky). Of the remaining shares of common stock of Louisville of Kentucky, 124,306 shares are owned by Standard Gas and 26,372 shares are held by the general public. In addition to its holdings of Louisville of Kentucky common stock, Louisville of Delaware also had net current assets as of March 31, 1947, of approximately \$936,000. Louisville of Delaware has outstanding 600,374 shares of Class A common stock and 300,949 shares of Class B common stock, all of which are without par value, and has no liabilities other than current liabilities.

Louisville of Delaware proposes to invest substantially all of its net current assets (other than an amount required for fees and expenses) in 34,864 additional shares of common stock of Louisville of Kentucky and to distribute its entire holdings of such common stock (918,025 shares) on the following basis:

For each share of Class A common stock: 1 1/4 shares of Louisville of Kentucky common stock.

For each share of Class B common stock: 0.913 share of Louisville of Kentucky common stock.

It is not contemplated that fractional shares of Louisville of Kentucky common stock will be delivered. In lieu

thereof, Louisville of Delaware will pay to each stockholder cash at the rate of \$25 per share for any fractional shares of Louisville of Kentucky common stock to which the stockholder may be entitled on the above basis. Any additional cash required by Louisville of Delaware for such payments will be procured by the sale to Standard Gas at \$25 per share of the shares of Louisville of Kentucky common stock which would otherwise be distributed as fractional shares. Standard Gas which owns 93.9% of the Class B common stock of Louisville of Delaware has advised the latter Company of its willingness to make such purchase.

The Plan also proposes that Louisville of Delaware will use its best efforts to cause Louisville of Kentucky to file an application with the New York Stock Exchange for the listing of the Louisville of Kentucky common stock prior to or promptly after consummation of the Plan.

Upon consummation of the Plan it is proposed that Louisville of Delaware will be dissolved.

Louisville of Delaware has requested that in the event the Plan is approved by this Commission application be made to an appropriate United States District Court to enforce and carry out the terms and provisions of the Plan. The Plan does not provide for the vote or consent of stockholders of Louisville of Delaware; upon the entry of a final decree of the Court, the provisions of the Plan will become binding upon all stockholders.

II. The Commission being required by the provisions of section 11 (e) of the act, before approving any plan submitted thereunder, to find after notice and opportunity for hearing that such plan, as submitted or as modified, is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected by such plan; and

The Commission having previously held hearings in these consolidated proceedings with respect to the issues presented under section 11 (b) (2) (File No. 59-78) and concerning the Original Plan dated November 3, 1944, and the Amended Plan dated May 16, 1946 both filed by Louisville of Delaware (File No. 54-113) and upon the application-declaration filed by Standard Gas and Electric Company to carry out certain transactions in connection with said plans (File No. 70-1015) and evidence having been received concerning the foregoing matters and plans, and it appearing that the issues presented by the Second Amended Plan (also filed herein in File No. 54-113) are related to and contain common questions of law and fact with respect to the issues presented by the aforesaid matters as to which evidence was previously received, and it therefore appearing that the said Second Amended Plan should be heard in the same consolidated proceedings and that the evidence previously taken in said proceedings should be considered in connection with said Second Amended Plan, subject to the right of any person to present such additional evidence as may be relevant and material, and that accordingly the hearing in these consolidated pro-

ceedings should be reconvened for the purpose of receiving evidence upon said Second Amended Plan and for the purpose of considering what order should be entered or other action taken pursuant to section 11 (b) (2) and with respect to said Second Amended Plan;

It is ordered, That the hearing in these consolidated proceedings pursuant to section 11 (b) (2) and section 11 (e) is hereby reconvened, and shall be held, for the purposes hereinbefore and hereinafter set forth, pursuant to the applicable provisions of the act and the rules and regulations provided thereunder, on the 30th day of June 1947, at 10:00 a. m., e. d. s. t., in the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as shall be designated on that day by the hearing room clerk in Room 318. Persons desiring to be heard should notify the Secretary of the Commission in accordance with Rule XVII of the Commission's rules of practice not later than two days prior to the date of said hearing. At said hearing there will be considered any issues presented pursuant to section 11 (b) (2) and with respect to said Plan pursuant to section 11 (e) and whether the Plan complies with the standards of section 11 (e). In connection with the Plan particular attention will be directed to the following matters and questions:

(a) Whether the Plan, as submitted or as it may be modified, is necessary to effectuate the provisions of section 11 (e) of the act and is fair and equitable to the persons affected thereby;

(b) Whether the proposed allocation of common stock of Louisville of Kentucky as between public holders of Class A and Class B common stocks of Louisville of Delaware and as between such public holders and Standard Gas, which holds Class B common stock of Louisville of Delaware, is fair and equitable;

(c) Whether the transactions proposed in such Plan comply with all the requirements and applicable provisions of the act and rules and regulations promulgated thereunder;

(d) Whether and to what extent the Plan should be modified or terms or conditions imposed to insure adequate protection of the public interest and the interests of investors and consumers in compliance with all applicable provisions of the act;

(e) Whether the fees and expenses proposed to be paid in connection with the said Plan and all transactions incidental thereto are for necessary services and are reasonable in amount;

It is further ordered, That at said hearing the evidence previously taken in these consolidated proceedings shall be considered in connection with the matters to be heard pursuant to this order, subject to the right of interested persons to introduce any further relevant and material evidence.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all the powers granted to the Commission under section

18 (c) of said act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That notice of this hearing shall be given to Louisville Gas and Electric Company (Delaware) Louisville Gas and Electric Company (Kentucky) Standard Gas and Electric Company, the Public Service Commission of Kentucky, the Mayor of Louisville, Kentucky, and to all persons who have previously appeared herein, by registered mail, and to all other persons by publication in the FEDERAL REGISTER and by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the act; and

It is further ordered, That Louisville Gas and Electric Company (Delaware) shall give notice of this hearing to all of the holders of its capital stock (in so far as the identity of such holders is known or available to said Company) by mailing a copy of this order and notice to such holders at least 15 days prior to the date of said hearing.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly-owned subsidiary, Binghamton Gas Works ("Binghamton"). Applicants-declarants have designated sections 6 (b) 9, 10 and 12 of the act and Rules U-42 and U-44 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 18, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 18, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as

provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed which are summarized as follows:

(a) Binghamton will amend its Certificate of Incorporation so as to (1) eliminate its 3,479 shares of authorized but unissued preferred stock; (2) increase its authorized capital from \$675,000 to \$1,875,000; (3) increase and reclassify its authorized common stock from 45,000 shares without par value to 75,000 shares having a par value of \$25 per share; and (4) reclassify its 45,000 shares of outstanding common stock without par value into 27,000 shares of common stock, \$25 par value.

(c) Binghamton will issue and sell to Columbia an additional \$1,000,000 principal amount of 3½% notes; the proceeds of which will be used by Binghamton to reimburse its treasury for amounts previously expended for construction and to provide funds during 1947 for its construction program and the acquisition of plant supplies.

The notes to be issued by Binghamton to Columbia are to be unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual installments on August 15 of each of the years 1950 to 1974, inclusive. Interest on the unpaid principal thereof is to be payable semi-annually on February 15 and August 15.
